

THE DIGITAL PLATFORM for participation and empowerment in DRRM.

The ATLAS is
more than a
repository.

It is a community resource
for co-designing inclusive
and resilient futures in
disaster management.

ISIG**

Founded in 1968, ISIG is a centre of excellence in applied social research and innovation.

We design and test community resilience strategies and assessment tools that empower local actors to prepare, adapt and recover from crises.

ISIG empowers public authorities and civil society to transform risks into drivers of sustainable and inclusive development.
